📍 Monte Grande, Buenos Aires,
Argentina (1842)

ABOUT ME

I am a Full Stack specialized in mobile applications, with experience in React Native for cross-platform solutions and Swift for native iOS development.

I excel in the end-to-end management of projects, from interacting with clients to understand their needs and address their concerns, to planning, development, and successful deployment to production.

I have led teams, presented effective solutions, fostered collaboration, and met objectives on time and within scope.

I enjoy learning new technologies and applying best practices to continuously improve in each project.

With an advanced level of English, I am proficient in Agile and Scrum methodologies, as well as version control tools to ensure efficient development.

You can find me on LinkedIn:

ABOUT MY EXPERIENCE

Due to the variety of projects I have undertaken, I encourage you to review my portfolio for a clear understanding of my experience:

<https://hernan-hawryluk.vercel.app>

Feel free to visit my GitHub repository to observe my coding practices:

<https://github.com/hernanhawryluk>

I am open to answering questions and providing detailed explanations about any of my projects.

WORK EXPERIENCE

• Freelance Developer – Oct 2022

Independently, I have led complex and ambitious projects, achieving significant results and gaining extensive experience throughout the process.

• Mobile Developer at Bytewave – Feb 2024

I develop mobile applications using React Native, TypeScript, Expo, Swift and SwiftUI. I lead client meetings to define requirements and plan the project approach. I collaborate closely with the frontend and backend teams to ensure successful integration and efficient delivery of complete solutions.

EXPERIENCE IN DEVELOPMENT

• Mobile applications in React Native and Swift:

- ✓ Efficient development following the DRY (Don't repeat yourself) methodology, creating reusable and maintainable code.
- ✓ Consumption of REST APIs and WebSockets. Implementation of services like OAuth, Firebase, Google Maps API, among others.
- ✓ Experience with the deployment on the Apple App Store and Google Play Store.

• Web Applications with React, Next.js and Tailwind:

- ✓ Responsive designs following best practices in interface design, user experience, accessibility and SEO.
- ✓ Performance optimization, payment platform integration, and efficient state management with React Context.
- ✓ Configuration of multilingual support and dynamic themes.

• REST APIs with Django and Node.js:

- ✓ Implementation of API routes with CRUD operations, data sanitization, and validation.
- ✓ Integration with relational databases like MySQL or PostgreSQL and NoSQL databases like MongoDB or Firebase.
- ✓ Unit testing for models, view, and their API routes.

CERTIFIED EDUCATION

• Meta - Professional Front-End Developer:

Specialization in web development using React, HTML, CSS, JavaScript and Bootstrap. UX/UI design in Figma and version control with Git & GitHub.

• Meta - React Native Specialization:

Specialization in cross-platform mobile application development for Android and iOS using React Native and Expo.

• Meta - Professional Back-End Developer:

Specialization in Back-End Development with emphasis on Python, OOP, Django web framework, and relational databases.

• Google - Project Management:

Agile methodologies course, using Scrum and Asana for project management and teamwork.
